

Allscripts ePrescribe is a Web-based application. In order to meet the needs of clients and offer the most current technologies, Allscripts maintains a list of certified and compatible browsers recommended for use of ePrescribe. Only the Browsers listed as Certified (see below) are fully tested and supported by Allscripts.

Oftentimes users may not see any adverse effects when using other “compatible” browsers but only the Browsers listed as Certified (see below) are fully tested and supported by Allscripts. If you experience performance issues or if you have any difficulty completing functions or services within the system and you are using a browser that is not listed as Certified, we recommend that you switch to a Certified browser.

Term	Definition
Certified	The use of this Browser is validated with every major and maintenance release of Allscripts ePrescribe.
Compatible	Key application areas of Allscripts ePrescribe are tested, but not necessarily tested with each release
Not Tested	The specified Browser is a Non-Certified and Unsupported Browser: Any Browser NOT listed as certified or compatible have not been validated by Allscripts ePrescribe and are not recommended. Issues arising from the use of this Browser will not be addressed by Allscripts

#### Microsoft® Internet Explorer® Web Browsers

	Windows XP	Windows Vista	Windows 7	Windows 8	Mac OS (any version)
Internet Explorer 8	Compatible	Not tested	Compatible	Not tested	N/A
